

## Our Physical World

Room 7, Term 3 2013

### Our Classroom

Understanding procedures

Being Prepared for an emergency

How does objects using energy help us in the classroom? (eg sliding the door across)

Where is our safe meeting place?

Everyday objects that use energy

Mapping our Classroom - getting out of our class

Understanding why we follow procedure

### I CARE, We CARE!

'I CARE, We CARE!'  
How? Why?

Emergency Drills—What do we do in an emergency?

What's the Plan Stan? - In our classroom

Mapping our room - where do we go in emergencies? In/Out of class

Switch On's & Off's

My Emotions - understanding how I might feel

### Our School

How do I fit in our school? (What role can I play outside the classroom to help others when in an emergency?)

Contributing to E.P.S. in positive ways

Being 'I Care, We Care' out in the playground - Caring for others

'What's the Plan Stan?' - In our School

Mapping the school - safety meeting places/zones

### Science - Energy

What types of energy are there?

What ways can energy be used to help People?

Investigate and describe everyday phenomena (eg push/pull)

What types of energy are used in natural hazards?

Mrs Maple - Energy

Reporting - what we did?

Digital Records
